ABOUT ME

Full-Stack Web Developer with hands-on experience building modern web applications using React, TypeScript, Django, and PostgreSQL. Strong background in front-end UI development with Tailwind CSS and backend API development using Django REST Framework. Experienced in deploying applications using Vercel and production-ready tools like Gunicorn and Cloudinary.

TECHNICAL SKILLS

Frontend:
React, TypeScript, JavaScript (ES6+), Tailwind CSS, React Router, Axios, Vite

Backend:
Django, Django REST Framework, JWT (SimpleJWT), PostgreSQL, Pillow, REST API design, CORS configuration

Tools & Deployment:
Git, GitHub, Render, Vercel, Gunicorn, WhiteNoise, Cloudinary, Postman, Python-dotenv, ESLint

EXPERIENCE

Simplevia Technologies Inc. – Frontend Developer Intern January 2025 - May 2025

Technologies Used: React, TypeScript, Tailwind CSS, Git, GitHub

Key Achievements / Responsibilities:

- Developed responsive, user-friendly web interfaces using React, TypeScript, and Tailwind CSS
- Built reusable React components and pages, implementing new features for the application
- Participated in code reviews and applied feedback to improve code quality and maintainability
- Collaborated with team members using Git and GitHub version control Maintained clean, reusable, and maintainable code following best practices

PROJECTS

Book Inventory System

Technologies: React, Tailwind CSS, Axios, Django, Django REST Framework, JWT, PostgreSQL, Cloudinary, Gunicorn, WhiteNoise, Render, Vercel

Links: Live Demo | GitHub

Key Achievements / Features:

- Implemented secure user authentication using JWT with Django REST Framework
- Developed and consumed RESTful APIs to manage CRUD operations for books
- Integrated Cloudinary and Pillow for efficient image storage and processing
- Deployed backend and frontend on Render and Vercel with production-ready configuration using Gunicorn & WhiteNoise

React-Tailwind Personal Portfolio

Technologies: React, Tailwind CSS, Vite, EmailJS, Lucide React

Links: Live Demo | GitHub

Key Achievements / Features:

- Developed responsive portfolio with reusable React components and pages
- Implemented contact form functionality using EmailJS
- Showcased projects, skills, and achievements with modern UI design

Hospital Appointment System (Capstone Project) Role: Frontend Developer

Technologies: HTML, CSS, JavaScript, Bootstrap

Links: Live Demo

Key Achievements / Features:

- Designed and developed the complete frontend including landing page, login/register, appointment booking, admin dashboard, and user profile pages
- Built responsive and mobile-friendly UI using Bootstrap with navigation/sidebar and data tables for efficient appointment and user management
- Implemented forms with client-side validation for user registration and appointment booking workflows

EDUCATION

Bulacan State University - Main Campus 2021 - 2025

Bachelor of Science in Information Technology

- Specialization: Web and Mobile Application Development
- Latin Honor: Cum Laude

St. Martin de Porres Catholic School of Guiguinto 2015 - 2021

Junior and Senior High School (STEM)

- With Honors

CERTIFICATIONS

Meta Full-Stack Developer Professional Certificate - Coursera 2025

- Front-End & Back-End Development covering React, JavaScript, Python, Django, REST APIs, Git, and Databases.
  Credential: View Certificate

Frontend Web Development with TypeScript – Edureka 2025

- Focused on TypeScript fundamentals, frontend architecture, and modern development practices.
  Credential: View Certificate

Meta Coding Interview Preparation – Coursera 2026

- Focused on data structures, algorithms, and technical interview problem-solving.
  Credential: View Certificate
