ABOUT ME

Full-stack web developer who builds fast, mobile-first websites that turn visitors into inquiries. Freelance experience building two real estate websites (a licensed broker and a developer) with Next.js, TypeScript, Tailwind CSS, and Supabase, including an interactive lot map and admin portal. Also experienced with Django, Node.js, PostgreSQL, and AI integration, deployed on Vercel and Render. BSIT graduate, Cum Laude.

TECHNICAL SKILLS

Frontend:
React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Responsive Design, React Router, Axios, Vite

Backend:
Django, Django REST Framework, Node.js, Express.js, Supabase, JWT (SimpleJWT), Prisma ORM, PostgreSQL, REST API Design, CORS Configuration

Tools & Deployment:
Git, GitHub, GitHub Actions, Postman, OpenRouter API, Render, Vercel, Gunicorn, WhiteNoise, Cloudinary, Python-dotenv, ESLint

EXPERIENCE

Freelance Full-Stack Developer 2026 - Present
- Built two real estate websites for clients with Next.js and Supabase
- Delivered property search, an admin portal, and an interactive lot map

Simplevia Technologies Inc. – Frontend Developer Intern January 2025 - May 2025
Technologies Used: React, TypeScript, Tailwind CSS, Git, GitHub
Key Achievements / Responsibilities:
- Developed responsive, user-friendly web interfaces using React, TypeScript, and Tailwind CSS
- Built reusable React components and pages, implementing new features for the application
- Participated in code reviews and applied feedback to improve code quality and maintainability
- Collaborated with the team using Git and GitHub, following clean-code best practices

PROJECTS

Archer Realty and Development Corporation (ARDC) Website 2026
Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Vercel
Links: Live Preview
Key Achievements / Features:
- Built a full-stack website for a real estate developer using Next.js and Supabase
- Developed an interactive lot map with lot selection, filters, and full-screen mode
- Created house model pages and inquiry forms for prospective buyers
- Mobile-first responsive layout; live preview with content rollout in progress

SMGC Properties – Real Estate Listings Platform 2026
Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Vercel
Links: Live Demo | GitHub
Key Achievements / Features:
- Built a full-stack real estate platform with Next.js and Supabase for a licensed real estate broker
- Implemented property search with buy/rent filters and detailed listing pages with inquiry forms
- Developed an admin portal for managing property listings and incoming leads
- Optimized for SEO with a dynamic sitemap; responsive, mobile-first design with Tailwind CSS v4

Book Inventory System 2026

Technologies: React, Tailwind CSS, React Router, Axios, Django, Django REST Framework, JWT, PostgreSQL (Neon), Cloudinary, Gunicorn, WhiteNoise, GitHub Actions, Render, Vercel

Links: Live Demo | GitHub

Key Achievements / Features:

- Built a full-stack library app with reader and librarian roles enforced by the API, using JWT authentication with Django REST Framework
- Implemented 14-day borrowing with due and overdue tracking, and safeguards against lending the last copy twice (row locking and a database constraint)
- Added books by ISBN or camera barcode scan, filling in details and covers from Open Library; server-side search, filters and paging
- Wrote 60+ backend tests plus frontend tests, run on every push with GitHub Actions; documented the API with OpenAPI/Swagger

GymAI Planner 2026

Technologies: React, TypeScript, Tailwind CSS, Node.js, Express.js, Prisma ORM, PostgreSQL (Neon), OpenRouter API, GitHub Actions, Render, Vercel

Links: Live Demo | GitHub

Key Achievements / Features:

- Built an AI workout planner that turns a short questionnaire into a personalized weekly training plan using the OpenRouter API, saved with a version history
- Added a public sample plan, a nutrition calculator, and AI meal ideas that work without an account
- Implemented Neon Auth sign-in, rate limits and a daily AI budget, with a clear fallback when the AI is busy
- Built a responsive React and TypeScript UI backed by a Node.js, Express and Prisma API, with CI on GitHub Actions

EDUCATION

Bulacan State University - Main Campus 2021 - 2025

Bachelor of Science in Information Technology

- Specialization: Web and Mobile Application Development
- Latin Honor: Cum Laude

St. Martin de Porres Catholic School of Guiguinto 2015 - 2021

Junior and Senior High School (STEM)

- With Honors

CERTIFICATIONS

Meta Full-Stack Developer Professional Certificate - Coursera 2025

- Front-End & Back-End Development covering React, JavaScript, Python, Django, REST APIs, Git, and Databases.
  Credential: View Certificate

Frontend Web Development with TypeScript – Edureka 2025

- Focused on TypeScript fundamentals, frontend architecture, and modern development practices.
  Credential: View Certificate

Meta Coding Interview Preparation – Coursera 2026

- Focused on data structures, algorithms, and technical interview problem-solving.
  Credential: View Certificate
